This file contains a list of all transfer outputs of the cluster identified by the following cluster ID:

9

The cluster is also known by the following name:

Each line represents a transfer output which is either sent to the cluster or received by the cluster.

Columns:

Hash: The 32 byte hash of the transfer that contains the output.

Date: The date when the transfer was confirmed.

Receiving Address: If the output is received by this cluster then this will be the address in the cluster that received payment.

Counterparty Address: If the output is sent by this cluster then this will be the address in the peer cluster that payment was sent to.

Counterparty Cluster Name: The name of the peer cluster if it has been given a name.

Counterparty Category: The category of the peer cluster if it has a category.

Counterparty Shared Name: The shared name of the peer cluster if it has been given a shared name.

Value: The approximate values.

 $USD\ value: The\ approximated\ USD\ value\ converted\ by\ using\ daily\ average\ prices.\ 0\ if\ the\ price\ is\ unknown.$

Total transfers:

67
